## List of figures

---

|                                                     |    |
|-----------------------------------------------------|----|
| Figure 1                                            |    |
| System block diagram .....                          | 3  |
| Figure 2                                            |    |
| Sample call record allocation .....                 | 4  |
| Figure 3                                            |    |
| Schematic of menus & functions .....                | 5  |
| Figure 4                                            |    |
| MAT Navigator .....                                 | 8  |
| Figure 5                                            |    |
| Call Accounting main window .....                   | 8  |
| Figure 6                                            |    |
| Report generation flow .....                        | 15 |
| Figure 7                                            |    |
| Sample Billing Database .....                       | 17 |
| Figure 8                                            |    |
| Toolbar summary .....                               | 18 |
| Figure 9                                            |    |
| Customer Directory .....                            | 39 |
| Figure 10                                           |    |
| Billing Database .....                              | 40 |
| Figure 11                                           |    |
| Schematic of Telephone Configuration Database ..... | 41 |
| Figure 12                                           |    |
| Node Information .....                              | 42 |

|                                            |    |
|--------------------------------------------|----|
| Figure 13                                  |    |
| Reporting Options .....                    | 45 |
| Figure 14                                  |    |
| Location Book Registry .....               | 47 |
| Figure 15                                  |    |
| Carrier Pricing Templates Definition ..... | 48 |
| Figure 16                                  |    |
| Rate Interface Editor .....                | 49 |
| Figure 17                                  |    |
| Communications Database .....              | 50 |
| Figure 18                                  |    |
| Sample Setup schematic .....               | 55 |
| Figure 19                                  |    |
| MAT Navigator Site/System .....            | 58 |
| Figure 20                                  |    |
| Call Database .....                        | 61 |
| Figure 21                                  |    |
| Trunk configuration schematic .....        | 62 |
| Figure 22                                  |    |
| Create Location Book .....                 | 63 |
| Figure 23                                  |    |
| Virtual Private Network grid .....         | 64 |
| Figure 24                                  |    |
| Location Book Registry .....               | 65 |
| Figure 25                                  |    |
| Call Type Definition .....                 | 67 |
| Figure 26                                  |    |
| Reporting Options .....                    | 69 |
| Figure 27                                  |    |
| Carrier Pricing Template .....             | 70 |
| Figure 28                                  |    |
| Pricing Definition .....                   | 72 |
